

ATI CANADA

AUSTECH INDUSTRIES LTD

Your Leader in Heavy Duty Mechanics

MANAGER'S UPDATE

Summer is really going by quicker than we would like! It's been great to spend time with family, friends, and enjoying the warm weather and of course some time off. However, it has been a busy month of July on the road with ATI, visiting both the Northern and Western regions.

While on site we performed safe working observations as well as truck and tool audits. It was nice to see a great improvement in our overall condition of our fleet and attention to safety, keep up the great work!

While visiting our mechanics and clients out West, I even spent some time helping one of our mechanics troubleshoot a shovel. It had been a while since I worked on an electric shovel but enjoyable none the less.

We are excited to announce that we have 10 more mechanics joining our company in the next couple of weeks, with no signs of recruitment slowing down. This additional workforce will help keep ATI strong, competitive, and improve our client's overall reliability and availability of equipment.

Enjoy the rest of your summer!

Regards,

Corey Coffey
Director of Field Operations

REFERRAL

PROGRAM

WELCOME TO THE TEAM

JULY NEW HIRES

Jennifer Kolesar-Lafaut

Samuel Jeffrey

Andrew Tracy

Steven Peck

Jason Curoe

Tyler Hull

**SAFETY
FIRST**

SAFETY MOMENT

*Do your work with pride,
put safety in every stride!*

FLEET UPDATES

As for our fleet, we are working hard to secure more service trucks to allow us to have two mechanics assigned to one truck. This will help improve the ownership and tooling of the truck you are assigned. Currently, we have 30 Service Trucks and 13 commuter trucks in our fleet. We are working diligently with each of you to ensure our trucks are serviced and repairs completed in a timely fashion.

VACANCIES AND TRANSFER OPPORTUNITIES

We have openings for Mine Electricians, Heavy Duty Mechanics, and as well as HET Apprentices! We are excited to train the next generation of mechanics, electricians, and leaders in our industry.

**WE CURRENTLY HAVE VACANCIES
ACROSS THE NORTHERN AND WESTERN REGIONS**

If you are interested in a site transfer, please send an email with updated resume to HR, at hr@aticanada.ca and new applicants, please refer them to careers@aticanada.ca.

Please note that only those qualified will be eligible for a transfer as we need to meet equipment specific skill sets for each client.

EMPLOYEES OF THE MONTH

CONGRATS, MITCHELL LOTT!

We would like to congratulate Mitchell Lott on being one of our Employees of the Month! Mitchell works at CST Coal and is always very supportive, chipper, and willing to go above and beyond. He lends a hand with tasks a long side completing his own. Mitchell is very clean and tidy in the crew house and is a pleasure to work with.

CONGRATS, TRISH KIRBY!

We would like to congratulate Trish Kirby on being one of our Employees of the Month! Trish consistently is working hard behind the scenes to ensure our team has everything they need. She is always willing to help other departments, consistently putting in extra hours, and goes above and beyond for ATI Canada.
